# Remote working with SAP Business One

Working from home has never been more topical or more crucial to the success, and in some cases, the survival of businesses facing the challenges brought about by COVID-19.

For some, working from home may become the new normal and it is essential that home workers are able to access all their business applications in the simplest, quickest and most cost effective way possible. Kinetek's Infrastructure Hosting Solutions for SAP Business One are designed from the ground up to do exactly that.

Remote Desktop Services ensure a quick, simple and secure connection to all work applications and data.

- Places a minimal 'footprint' on home office devices (PC, Tablet, Mobile)
- Removes reliance on office PCs, thin clients and business internet feed
- Guarantees security & performance
- Reduces reliance on internal IT resources

SAP Business One

KINETEK SOLUTIONS
STRAIGHT TALKING TECHNOLOGY
